

Register of legal practice areas

In the Life Sciences field, risks are encountered on all kinds of levels: scientific, technological, regulatory, and financial. To ensure these risks don't slow you down, you need lawyers who focus on opportunities and are aware of obstacles. You need Axon Lawyers.

Axon Lawyers is a dedicated Life Sciences law firm. From medical devices to biotechnology, from pharmaceuticals to diagnostics, from medical apps to novel foods and biobased economy — we understand the markets, we know the science and we deploy our legal expertise to serve your strategic and business needs.

The advocates listed below have registered the following principal (and secondary) legal practice areas in the Netherlands Bar's register of legal areas:

- a. Carine van den Brink is registered for the general legal practice area ("algemene rechtspraak");
- b. Erik Vollebregt is registered for the primary practice area of healthcare law;
- c. Karin Verzijden is registered for the general legal practice area ("algemene rechtspraak");
- d. Cécile van der Heijden is registered for the general legal practice area ("algemene rechtspraak");
- e. Max Luijkx is registered for the general legal practice area ("algemene rechtspraak");
- f. Judith de Wilde is registered for the general legal practice area ("algemene rechtspraak");
- g. Max Baltussen is registered for the general legal practice area ("algemene rechtspraak").

Based on this registration, they are required to obtain ten training credits per calendar year in each registered principal legal practice area in accordance with the standards set by the Netherlands Bar.
